PCI Analog TV Tuner Card

Model
176132

Transform your computer into a multimedia center.

Receive television and radio broadcasts almost anywhere with the MANHATTAN® PCI Analog Tuner Card, which brings analog television and FM radio to desktop computers. Users can easily schedule and record television and radio programs directly onto hard drives for replay or transfer to CD and portable media devices.

Impressive Features and Controls Enhance Viewing Options
Digital Personal Video Recording captures and directly saves television programs to the hard drive for replay or transfer to CD and other portable media devices. Using the time-shifting capability, viewers can replay favorite scenes, skip annoying advertising and execute pause/rewind/fast forward control with live video and recorded programs. Intelligent Channel Search selects and stores only the channels with strongest signals. Multi-Channel Preview displays up to 16 channels simultaneously.

Easy Installation Makes It Ready to Enjoy
Simple connection and Plug and Play capability allow the MANHATTAN PCI Analog Tuner Card to easily install in seconds on any desktop computer.

Lifetime Warranty
Strict manufacturing standards ensure the highest quality in all MANHATTAN products. All items carry a full Lifetime Warranty — the strongest quality commitment anyone can make.
